1866.

The past year has been the most eventful of the decade, if not of the present century. The chief occurrences that have crowded into that "tiny span that makes the weal or woe of man," will suffice the future historian with material of a most varied and absorbing character, while it affords us interesting matter for a present brief review. Although war has devastated several portions of the old and new world—although rebellion and sedition have raised their gaunt and hideous forms in divers places, and droughts, epidemics, panics and famine have held cruel sway in various parts of the universe, it is, nevertheless, a gratifying fact that peace has also been winning her victories, and the year 1866 can lay claim to the greatest scientific achievement the world has ever witnessed. Of the nations who have risked their destinies on the battle field and won a renown that will outlive time itself, the name of Prussia deserves to be first inscribed on the roll of fame. Neither ancient nor modern history can furnish a parallel to the celebrated ten days' campaign in Germany. Here were Austria and Prussia, two powers pluming themselves on their great military prowess, with large and well disciplined armies—considered numerically and physically equal—confident in their own might, deliberately agreeing to differ and settle their differences by force of arms, and in less than two weeks after striking the first blow, victorious Prussia had swept through Central and Lower Germany like an avalanche, and Austria finding herself completely worsted in battle, and the conqueror at the gates of her capital, is compelled to sue for a humiliating though not a dishonorable peace. The other countries at war during the year have been Brazil and Paraguay, whose desperate fighting still continues, success generally favoring the Brazilians; Spain, Chile and Peru, and Russia and Bokhara, added to which, have been the internal dissensions in Mexico, Central America, China and Japan, the rebellions in Jamaica and Candia, and the Fenian demonstrations on the Canadian border, all of which have been attended by more or less bloodshed. In disasters and visitations the year just closed has been unusually prolific. In India a fearful famine, with its thousands upon thousands of victims; in the States and Canada, the terrible fires at Portland and Quebec; in England, the cattle disease and commercial panic and failures; in the Bahamas, the dreadful hurricane at Turks Island; and in Australia and the Cape of Good Hope, severe droughts and general depression have severely produced intense suffering. In political matters the principal movements have been the establishment of German unity on a firm and powerful basis consequent on the successes of the Prussian arms in Central Europe; the achievement of Italian independence by the cessation of Venetia; the collapse of the Mexican Empire; the withdrawal of French protection from Rome; the change of Ministry in England; the Republican victories in the United States; and the progress of the Confederation scheme in Canada and the Provinces. In science, we have to record the triumph of genius in the successful stretching of two submarine cables across the Atlantic—everlasting monuments to British skill and American enterprise; the same enterprise that is now rapidly pushing the electric wire through the wilds of British Columbia, Russian America and Siberia, to complete the electric chain that before the dawn of 1870 will girdle the entire globe. Death during the year has been busy in the ranks of the great, and has visited crowned heads, potentates and notables, including among its victims, the amiable Empress Carlotta of Mexico, the Tycoon of Japan and America's great soldier General Scott. Two other crowned heads, Alexander of Russia, Francis Joseph of Austria, and Prussia's great statesman, Bismarck, but for the warding off of the assassin's blow, would have been added to the fatal list. Such are, perhaps, the main incidents of the past year that have transpired in the outer world, and from which we have excluded all mention of an event that vitally affects the interests of this portion of Her Majesty's dominions—the consummation of Union. There are some who are inclined to forbode nothing but evil from this occurrence, but they are few, and after the scheme has been in operation for a year, this small minority will perceive with the rest of the Colonists that the only feasible means of dragging the two Colonies out of the "slough of despond" is by making their hitherto conflicting interests identical, and lessening the burdens of the people, by substituting one cheap form of Government for two useless and extravagant ones.

By Electric Telegraph

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DESPATCHES

The Fenians.

NEW YORK, Dec. 28.—The Herald's special correspondent in Ireland, under date Dec. 16, says the Fenian excitement raged at fever heat. Six British war vessels were off Queenstown, to protect the loyal and wealthy inhabitants. In several of the districts, troops have been sent to the South. Stephens was thought to be in the South. It was said that a rising would take place immediately in the vicinity of Waterford, Limerick and Kilkenny.

Michael Crowley, a Fenian, was convicted at Swetsburg, Canada, yesterday. There remains but one Fenian not yet tried.

Eastern States.

WASHINGTON, Dec. 28.—A vigorous effort will be made to commit the two Houses, to securing the admission of any single southern state, or any number of them, upon condition of accepting the constitutional amendment.

A despatch received at headquarters of the army from Fort Laramie, confirms the statement that a terrible massacre occurred on Friday, 2nd December, near Fort Phil Kearney, in which Col. Fetterman, Captain Brown and Lieutenant Grammon, of the 18th infantry, with 91 enlisted men of the 2nd cavalry and 18th infantry, were surrounded by Indians, and every officer and man murdered.

NANAIMO PUBLIC SCHOOL.—The number of pupils of both sexes is at present 50, the average attendance during the last 6 months being 41. There are 5 reading classes, 2 grammar, 2 geography, 2 slate and mental arithmetic, 1 English history, and 1 dictation class, all of whom were examined by the teacher. But there is, besides, a small book-keeping class, which has been retarded in its progress (like some of the other classes) by the irregular attendance of the pupils. There are also 29 who write in copy-books, the remainder on slates. Names of pupils ranging highest in the upper classes: first, or highest, reading—John Sabiston, 1st; James Knarston, 2nd; Esther Richardson, 3d. Second reading—Emily Bate, 1st; Agnes Gough, 2d. First arithmetic—James Knarston, 1st; Joseph Randle, 2d; John Sabiston, 3d. Second arithmetic—William H. Wall, 1st. First grammar and composition—James Knarston, 1st; J. H. Knarston, 2d; Joseph Randle, 3d. Second grammar—Esther Richardson, 1st; William McGregor, 2d. First geography—John Sabiston, 1st; John H. Knarston, 2d. Second geography—James Galloway, 1st; Joseph Sage, 2d. English history—James Knarston, 1st; J. H. Knarston, 2d; Joseph Randle, 3d. Dictation—James Knarston, 1st; John Sabiston, 2d; Esther Richardson, 3d. Writing—James Knarston, 1st; Esther Richardson, 2d; James Dunsmuir, 3d. Book-keeping—Alexander Dunsmuir, 1st.

BITTEN BY A DOG.—A lad named Simon Cerf charged David Edwards, of Yates street, yesterday in the Police Court, with permitting a ferocious dog to roam at large unmuzzled. The complainant stated that he was passing the premises of Mr Edwards on New Year's day, having been sent on an errand, and was looking across the street when the dog sprang at him and bit him on the leg and arm. The defendant said that the complainant and other boys were in the habit of poking sticks through the railings and making noises to worry the dog, and on the day in question he and others annoyed the dog and fired off pistols loaded with caps at it. Messrs Peacock and White gave similar testimony, and did not regard the dog as ferocious. The boy's father and sister were called to prove that he was not away from his own house before the occasion on which he was bitten. The girl said she was herself so afraid of the dog that she was in the habit of passing on the other side of the street. Mr Pemberton said he had no power to order the dog to be destroyed, but on the evidence before him he might commit the accused for trial. Some parties entertained a superstition, which acted more or less upon the nerves, that when bitten by a dog hydrophobia might ensue unless the animal was destroyed. He recommended Edwards to have it killed, and that would end the matter. The case was adjourned until Monday to enable the parties to come to an understanding.

THE ALLEGED ATTEMPT TO ASSASSINATE THE EMPEROR OF AUSTRIA.—The Prague correspondent of the London Times, writing under date of Nov. 2d, says: "But little is now said of the attempt reported to have been made on the Emperor while at Prague, as there is some reason to believe that Mr Palmer deceived himself when he fancied he saw the tailor, Anthony Post, level a pistol at His Majesty as he was getting into his carriage. The ultra-Czech papers profess to think that Palmer, 'having an ungovernable passion for notoriety,' has made a false charge against Post. The gunpowder and caps which were found are of Belgian manufacture, and the pistol is a mere toy, which could not have cost more than three or four shillings. The gentlemen who picked up the pistol have sworn that it was lying on the opposite side of the Imperial carriage to that on which Post was standing when he was seized by Palmer. As to the latter, he has declared that he is unable positively to swear that Post had a pistol in his hand when he held out his arm towards the Emperor. The defendant is still under examination, and he is likely to remain so for some time to come, as the Austrian judges are exceedingly slow. It is said that the principal person concerned does not believe Post had any intention to make an attempt on his life, and that he expressed himself to that effect before he left Prague."

THE FENIANS.—That this wretched movement has been completely squelched, late cable news published yesterday and for several days preceding clearly shows, and yet that sensation-loving sheet, the New York Herald, has the baseness to impudently, as will be seen on reference to our last night's despatches, to announce that the excitement was raging in Ireland at fever heat and that an uprising was imminent.

Public Meeting.

A requisition, signed by a large number of industrial citizens, was presented to Mayor Macdonald, on Thursday, requesting him to convene a public meeting to consider the propriety of memorializing the Government on the question of the future capital, to which His Worship replied as follows:—

GENTLEMEN:—In answer to your requisition, asking me to convene a public meeting "to consider the propriety of memorializing the Government to make Victoria the Capital of the Colony," I will name Monday next, the 4th inst., at the Theatre, at the hour of 8 p. m.

W. J. MACDONALD, Mayor.

To Roderick Finlayson, Esq., J. H. O'Neale, Esq., John Wilkie, Esq., Lumley Franklin, Esq., and fifty others who signed the petition.

BLOWING UP OF A CHURCH.—An act which has created some excitement in the district was committed at Walsingham, Norfolk, on Monday. It appears that in the evening the parish clerk, according to custom, went to the church and rang the 8 o'clock or curfew bell. He had left the church about ten minutes when the whole town was shaken by a violent explosion, and it was discovered, after a short interval, that some miscreant had forced the door of the church leading to the chancel, and had, by a deposit of gunpowder beneath the organ, completely shattered not only the instrument but also the beautiful windows of the chancel. The powder had, apparently, been fired by a fuse, after lighting which, the fellow decamped. The damage sustained by the organ alone is estimated at £200, and the injury inflicted on the window cannot be repaired from an antiquarian point of view. The church was restored at a cost of more than £1,700 in 1862.—London Times, Nov. 7th.

CHRISTMAS CAROLS AT NANAIMO.—A party of young men were accused before the Magistrate at Nanaimo, of having serenaded Mr A Hood, the village apothecary, and smashed in his show window with stones. Among the accused was the Magistrate's own son, who proved an *adit* and was discharged from arrest. The evidence (a full report of which has come to hand, but which our want of space compels us to lay aside) showed that the remainder of the accused were out singing Christmas Carols on Christmas eve; that they visited several houses and were hospitably entertained; that on reaching Hood's shop, they sang, and that during the singing the stones were thrown and the windows smashed in. The prosecution, however, failed to connect any of the party with the perpetration of the outrages and the charges were dismissed.

SUPREME COURT.—The Chief Justice sat yesterday and heard motions and arguments of counsel upon the petition of Sister Mary Providence as to the condition of the estate of the late J. D. Carroll, and a decree that would be satisfactory to both sides, was ordered to be drawn up. J. Rabson, of Esquimaux, acting in his own behalf, moved for the returning to him of \$146 50, amount of judgment obtained against him two years since, and levied for on or about the 20th ult. Mr Bishop appeared to oppose and the motion was denied. Rabson then stated to the Court that he had paid the Sheriff \$5 for the expense of the levy. Mr Bishop explained that the charge was customary and proper; but His Lordship ordered Rabson to file an affidavit in the matter and directed that the Sheriff be notified to attend and furnish an explanation.

SERIOUS CHARGE.—Robert Hicks and John Smith, belonging to the sloop Leonede, were charged yesterday in the Police Court by George Atkinson, captain and owner of the vessel, on suspicion of stealing \$470 in bank notes and a deposit receipt of \$800 of the Bank of British North America. The accused were remanded until Monday for further evidence.

THE APPOINTMENTS.—A full list of the appointments under the united Government is looked for this evening in the *Government Gazette*. Thus far, most of the Vancouver Island officials are in a state of blissful ignorance, not to say disagreeable suspense, as to their fate. We hope that the worst and the best will be known to-day.

DR WHITEHEAD, who has been for some time confined for safe keeping and medical treatment in the gaol, was yesterday brought before the police magistrate, and desired to be retained as he was recovering so rapidly that he would soon be able to practice his profession. He was at present he said suffering from effusion of the left kidney.

SALE OF REAL ESTATE.—Mr McCann's property, on Port street, was sold yesterday at public auction by P. M. Backus, and realized the following prices: half lot, with premises, occupied by Mr Boscowitz, was sold to Mr McEliernan, for \$1250. The other half lot, with house, occupied by the owner to Capt. Reid, for \$1075.

DISCHARGING.—The ship Vortigern commenced discharging her cargo of lumber on Sellick's wharf, at Esquimaux, yesterday morning. She will be thoroughly repaired before taking her departure for Adelaide, Australia. She will carry a number of passengers from this port.

THE ST. ANDREW'S CHURCH FESTIVAL will be held on Wednesday evening next. Among the gentlemen who have promised to be present and deliver addresses are Chief Justice Needham, Rev. Mr Simpson of Olympia, and Mr A R Robertson of this city.

A NUMBER of signs have been removed from office doors, lately, to the no small annoyance of the sufferers. The skylarkers who practice such tricks, if caught, should be assigned to the tender mercies of the magistrate.

WAGES.—An Indian named Bill sued a woman named Maggie yesterday in the Police Court for \$24 25, wages claimed to be due. Defendant did not appear, and an order was made for the amount claimed, to be levied by distress.

DRAMATIC CLUB.—The regular monthly meeting of the members of the Amateur Dramatic Club will be held at the Club Room this evening at half-past seven o'clock.

The Biddle will take lumber, instead of coal; and the repairs effected are only temporary.

The ship Evelyn Wood sailed from the outer harbor, for Callao, yesterday.

The Active will leave San Francisco at noon to-day.

The Sparrowhawk is expected to arrive from New Westminster to-day.

The Mayor as a Legislative Councilor. Messrs. Editors.—Several letters have appeared in your journal, of late, referring to the appointment of the Mayor of the city, to a seat in the Council. The questions raised are, first—Is there anything in the Incorporation Act, to prevent the Mayor accepting the appointment? Second—Can the positions of Mayor of Victoria and member of the Council be united, without the duties of one office interfering with the other?

These questions may be left for Mayor Macdonald to decide. A perusal of the Act will show whether there is any legal disqualification. A third question is, whether, in case of a fresh appointment, Victoria would have a more zealous and energetic representative? Those who think the chances favorable are right in asking Mr Macdonald to decline the appointment; and if the majority of the citizens signify a wish to that effect, there can be no doubt that it would be complied with, otherwise, Mr Macdonald, by relinquishing his seat in the Council, would be neglecting the interests of the Colony, at a most critical juncture.

YET ANOTHER CITIZEN.

ONE GLASS OF WINE.—A very interesting story of the birth, parentage and rise to power of the Emperor of France, is given in Harper's Magazine. Included in that article we also find the history of one glass of wine, as follows: The Duke of Orleans, the oldest son of King Louis Philippe, was the inheritor of whatever rights the royal family could transmit. He was a noble young man—physically and intellectually noble. One morning he invited a few companions with him as he was about to take his departure from Paris to his regiment. In the conviviality of the hour he drank too much wine. He did not become intoxicated; he was not in any respect a dissipated man. His character was lofty and noble. But in that joyous hour he drank a glass too much. He lost the balance of his body and his mind. Bidding adieu to his companions, he entered the carriage. But for that extra glass of wine he would have alighted on his feet. He had struck the pavement. Senseless, bleeding, he was taken into a beer shop, and died. That extra glass of wine overthrew the Orleans dynasty, confiscated their property of one hundred millions of dollars, and sent the whole family into exile.

Mother—Here, Tommy, is some nice color oil, with orange juice in it. Doctor—Now, remember, don't give it all to Tommy, leave some for me. Tommy (who has "been there")—Doctor's a nice man, ma; give it all to the doctor.

THE PEOPLE'S FRIEND.

PERRY DAVIS'

VEGETABLE PAIN KILBER.

Taken internally, it cures sudden colds, coughs, etc., weak stomach, general debility, nervous sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painters' colic, Asiatic cholera, diarrhoea, and dysentery. AGRAND EXTERNAL CURE FOR Burns, Scalds, and old sores, severe burns and scalds, cuts, bruises and sprains, swollen joints, ringworm and tetter, broken breasts, frost-bite and chilblains, toothache, pain in the face, neuralgia and rheumatism. It is a SURE REMEDY FOR ACNE AND CHILLS AND FEVER.

MOORE & CO., Agents.

A New and Grand Epoch in Medicine! Dr. Mason is the founder of a new Medical System! The human system, whose vast internal forces enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most violent cases with a box or so. His wonderful and all healing Pills. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggell's Pills and have caused the eyes of the public to the inefficiency of the (so-called) remedies of others, and upon which people have so long blindly depended. Maggell's Pills are not of the class that are swallowed by the dozen, and of which every box full creates a absolute necessity for another. One or two of Maggell's Pills suffices to place the bowels in perfect order, tone the stomach, cure an appetite, and render the system light and buoyant. There is no gripping, and no reaction in the form of constipation. If the liver is affected, its functions are restored and the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Gross and enervating diseases are literally exterminated by the direct and powerful of Maggell's Pills. In fact, it is here announced that Maggell's Pills. Dyspeptic and Diarrhetic Pills are where the cure is wanted for Burns, Scalds, Chilblains, Cuts, and all abrasions of the skin. Maggell's Pills are sold by J. Maggell, 111 Pine street, New York, and all Druggists at 25 cents per box.

HOLLOWAY'S PILLS AND OINTMENT.—These remarkable remedies are justly esteemed by all parts of the world, for there is no internal or external disease that cannot be cured by which the one or the other is not a positive remedy. Eruptions, tumors, scurvy, cancer, asthma, rheumatism, gout, dropsy, entirely subside and disappear under the joint action of these medicines; and in cases of indigestion, sick headache, bilious complaints, debility, and other disorders originating in the internal organs, the Pills produce the most astonishing results. They render every organ of secretion healthy, they act immediately on the absorbent system, lungs, heart, and circulation, whereby they invariably give energy, tone and vigor to all the natural functions of life.

THE BEST REMEDY FOR PURIFYING THE BLOOD strengthening the Nerves, restoring the lost Appetite. FROES'S H. AMBURG TEA. It is the best preservative against almost any sickness, used timely. Composed of herbs only, it can be given safely to infants. Full directions in English, French, Spanish, and German, with every package. TRY IT! For sale at all the wholesale and retail drug stores and grocers. EMIL FROES, Wholesale Druggist, Sole Agent, 410 1/2 St. San Francisco 442.
